

REMARKS

Applicant appreciates the Examiner's assistance in the prosecution of this application. It is applicants understanding that with the "rotational" terminology added to claims 29 and 30 all of the claims in the application except claim 25 are in condition for allowance. With respect to claim 25, the Examiner's citation of U.S. 3,199,613 has lead applicant to amend claim 25 to make more explicit that which is was implicit in the original claim that the tubular member received in the well casing is in direct contact with that casing. It appeared to applicant from a telephonic discussion with the Examiner that this clarification of claim 25 may result in the allowance of claim 25 along with the other claims already believed to be in condition for allowance. These amendments, it is understood by applicant, is fully responsive to both the Office Action mailed on February 7, 2005 and the informal citation of U.S. 3,199,613 discovered by the Examiner and communicated to applicant's attorney.

In the event the Examiner has any queries regarding the instantly submitted Amendment, Applicant's attorney respectfully requests the courtesy of a telephone conference to discuss any matters in need of attention.

In the event that there are any fees due with respect to this Response, Applicant's attorney respectfully requests that such fees be withdrawn from Deposit Account No. 02-0429.

Respectfully Submitted,

CANTOR COLBURN LLP
